Our story

From an establishment to a company

The company's first stone was laid in 2012, when Aman Al-Emaar Contracting Establishment was set up to meet the growing, ever-changing needs of the real-estate and contracting sector.

Within a short time it had earned a place and a good name, through the professionalism it brought to every project. That won the trust of clients and partners, and lived up to its name: "security for construction".

Then came an ambitious new start: the establishment became SECURE Construction Co. Ltd., the natural next step after years of steady work and a determination to lead. The company carries forward the reputation those years built.

Today it looks ahead with a broad range of services for this vital sector, guided by the opportunities Saudi Vision 2030 is opening up for the Kingdom's economy.

Vision

A leader in contracting and property services

We aim to lead in contracting and property services, through the highest standards of performance, continuous development of our people, and firm professional and safety standards.

Mission

Services of the highest quality

We set out to deliver the highest quality in general contracting, property management, construction, infrastructure and maintenance, by bringing in experienced, capable people in every discipline.

Our values

Shared values behind every decision

Shared values are the reference every plan and every decision in the company starts from, and everyone on the team knows why they matter.

The client first

Everything we do starts from understanding what the client needs and hopes for, and delivering it in a fresh, well-considered way that serves their goals.

Innovation

A value we aim higher for, and pursue in every piece of work.

Integrity

The principle we hold to above all, to earn the trust of clients and partners.

Safety and professionalism

We hold to professional and safety standards on every site and at every stage.

Our clients' satisfaction with our work.

Milestones

2012
Aman Al-Emaar Contracting is founded
The first stone, laid in answer to the growing needs of real estate and contracting.

2022
SECURE Construction Co. Ltd.
The crowning of years of steady work, and an ambitious new start.

2030
Towards Saudi Vision 2030
We look ahead with a broad range of services, shaped by what Vision 2030 opens up.

How we deliver

Organised from day one

01

Receiving the site

We take over the land and review the approved drawings and the project's requirements.

02

Planning and scheduling

We set a realistic schedule, planned around the project's size and needs.

03

Laying the foundations

Construction starts with the foundations, carried out precisely and to specification.

04

Every stage of the build

We carry the project through every stage, applying quality and safety standards throughout.

05

Handing over the keys

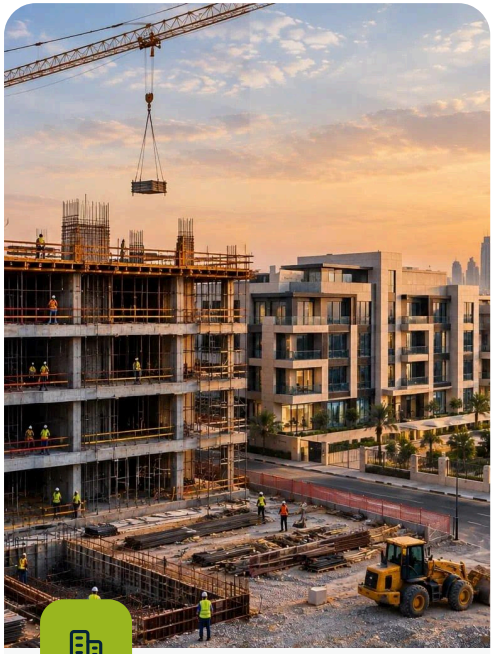

We hand the finished project to the client, as the approved drawings show it.

What we do

From receiving the land to handing over the keys

We work across many lines of business and carry out our specialist trades with our own teams, so we deliver the whole project from start to handover.

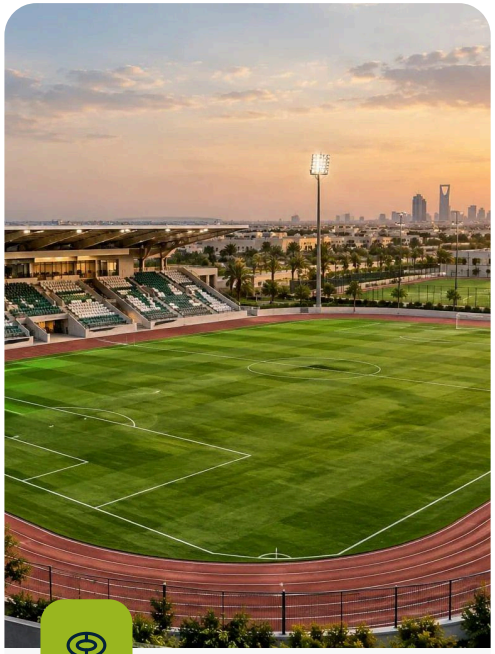

General construction

Residential, commercial and industrial buildings, from foundations to finishing and handover.

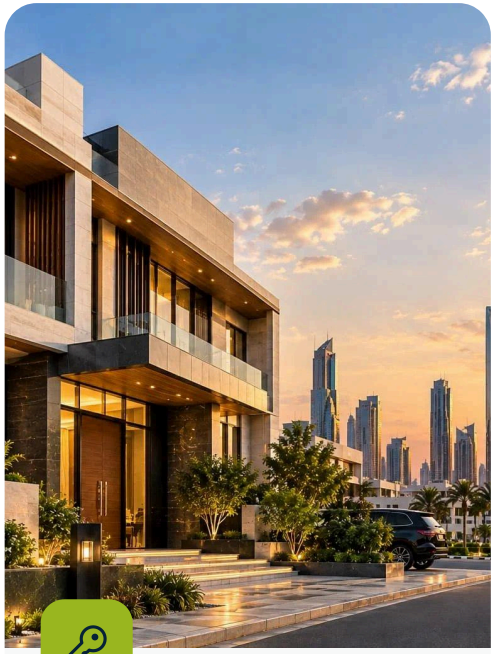

Infrastructure

Roads, bridges, stations, drainage networks, pipelines and cable routes.

Sports facilities

Public and private sports grounds of every size, built to the approved standards.

Property management and brokerage

Managing owned and leased property and self-storage, with agency and brokerage services.

Line of business 01

General construction

Residential, commercial and industrial buildings, from foundations to finishing and handover.

General construction covers residential and non-residential buildings, such as schools, hospitals and hotels, as well as prefabricated buildings, renovation, maintenance and finishing works.

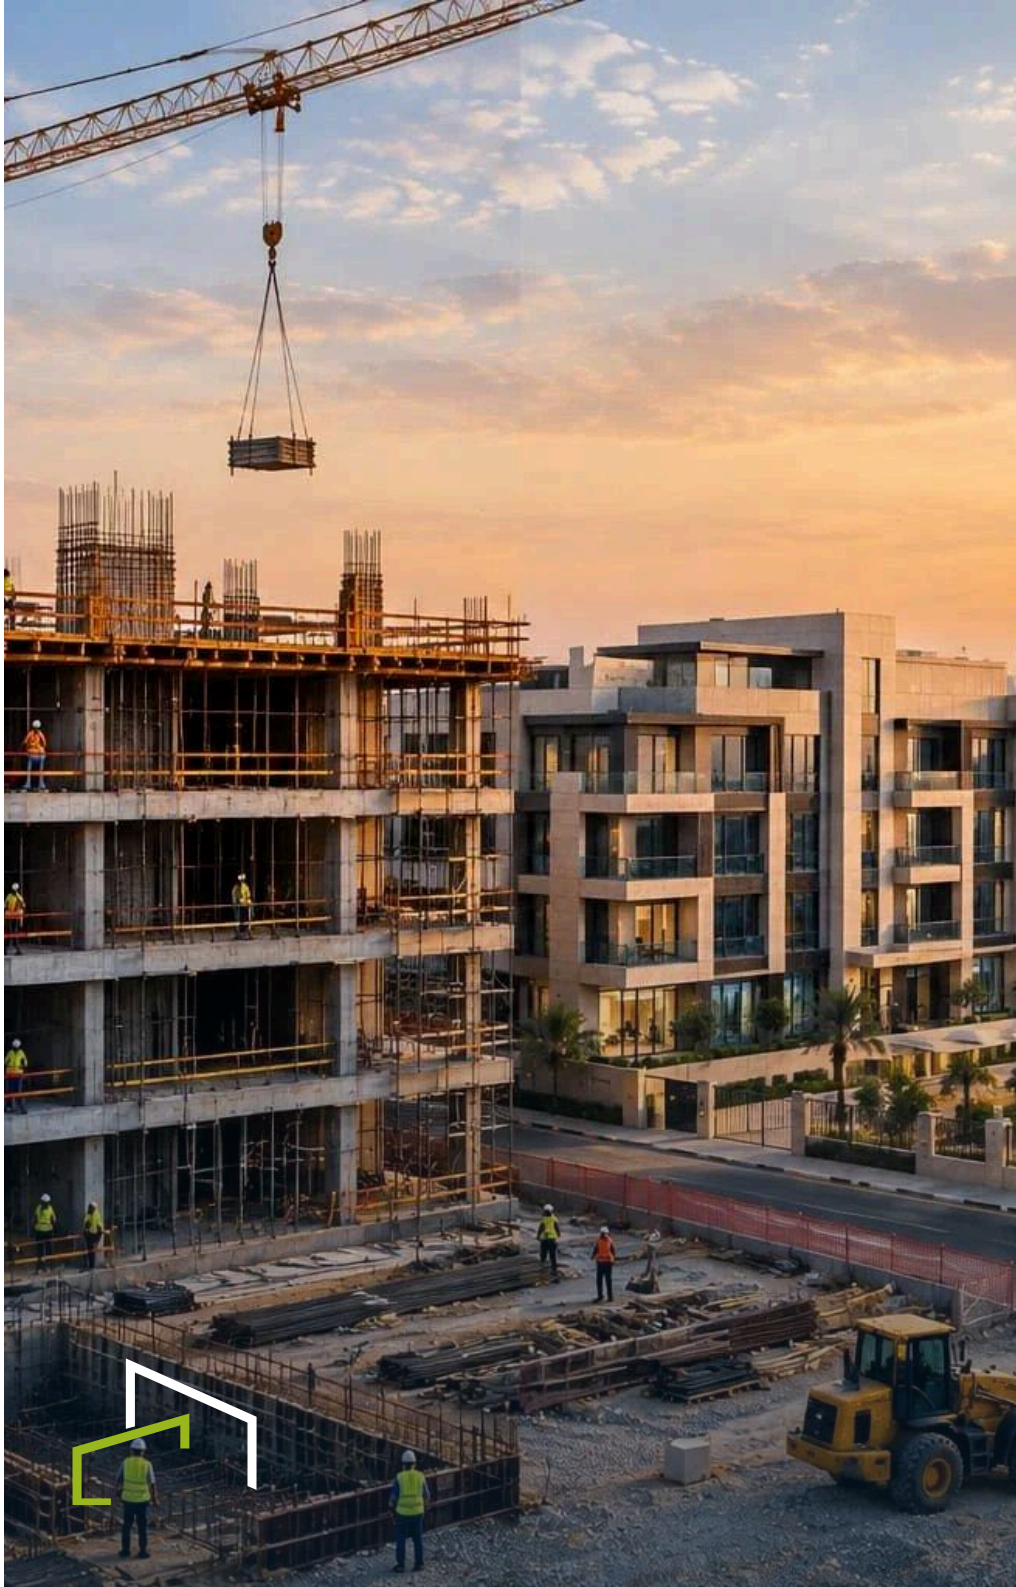

We take a project from receiving the land and laying the foundations to handing over the keys, built to the approved drawings and on a schedule planned around the size of each job.

Services in this line

- Structural contracting
- Electrical works
- Plumbing works
- Waterproofing and thermal insulation
- Gypsum and decoration
- Concrete treatment

Our work in this line

- ✓ Commercial building
- ✓ Polyurethane roof insulation
- ✓ Desert resort on the Eastern Province - Riyadh road
- ✓ Steel factory
- ✓ Finishing works, Second Industrial City mosque, Dammam
- ✓ Factories in the Third Industrial City

Line of business 02

Infrastructure

Roads, bridges, stations, drainage networks, pipelines and cable routes.

Infrastructure touches daily life directly and every day, so we invest in it. We build roads, streets, bridges, tunnels and stations, drainage projects, and pipe and cable routes of every kind, alongside their repair and maintenance.

Our work in this line

- ✓ Gas pipeline project
- ✓ Shades, car parks and asphalt works for a government entity

Line of business 03

Sports facilities

Public and private sports grounds of every size, built to the approved standards.

We build sports grounds of every kind, public and private, in a range of sizes and to a high specification, following the approved specifications and standards.

Line of business 04

Property management and brokerage

Managing owned and leased property and self-storage, with agency and brokerage services.

We bring long experience to managing owned and leased property, residential and commercial, and self-storage facilities, and offer agency and real-estate brokerage services.

Services in this line

- Cleaning
- Central air-conditioning duct cleaning

01 / 08

Specialist works

Structural contracting

General construction

Every structural work from receiving the land to handing over the keys, to the approved drawings.

We carry out the whole structure of a project: from receiving the land and laying the foundation stone, through every stage, to handing the keys to the client. Work follows the approved drawings closely, on a schedule planned for the size and demands of each project.

Includes

- ✓ Excavation, foundations and footings
- ✓ Concrete frames, columns and slabs
- ✓ Steel structures for factories and warehouses
- ✓ Handover to the approved drawings

02 / 08

Specialist works

Electrical works

General construction

Electrical installation for every project, by a specialist team and to recognised safety practice.

Our electrical team brings specialist technical experience to every project. We install and route the electrical works a building needs, applying internationally recognised safety procedures at each step.

Includes

- ✓ Lighting and power wiring
- ✓ Distribution boards
- ✓ Work to recognised safety procedures

03 / 08

Specialist works

Plumbing works

General construction

Plumbing carried out by skilled trades and specialist supervisors, efficiently and to a high finish.

Plumbing is one of the most sensitive parts of any building, so we have brought in trained tradespeople and specialist supervisors for it. They carry out the work and deal with whatever the site presents, efficiently and to a high standard.

Includes

- ✓ Water supply and drainage pipework
- ✓ Installing sanitary fittings
- ✓ Specialist supervision

04 / 08

Specialist works

Waterproofing and thermal insulation

General construction

Insulating buildings with approved materials and proven techniques, for comfort and protection.

Insulation is now an essential part of modern construction: it keeps a building comfortable and protected through the region's changing climate. We use approved insulation materials and internationally applied techniques and standards.

Includes

- ✓ Roof waterproofing and thermal insulation
- ✓ Sprayed polyurethane insulation
- ✓ Waterproofing footings and foundations

05 / 08

Specialist works

Gypsum and decoration

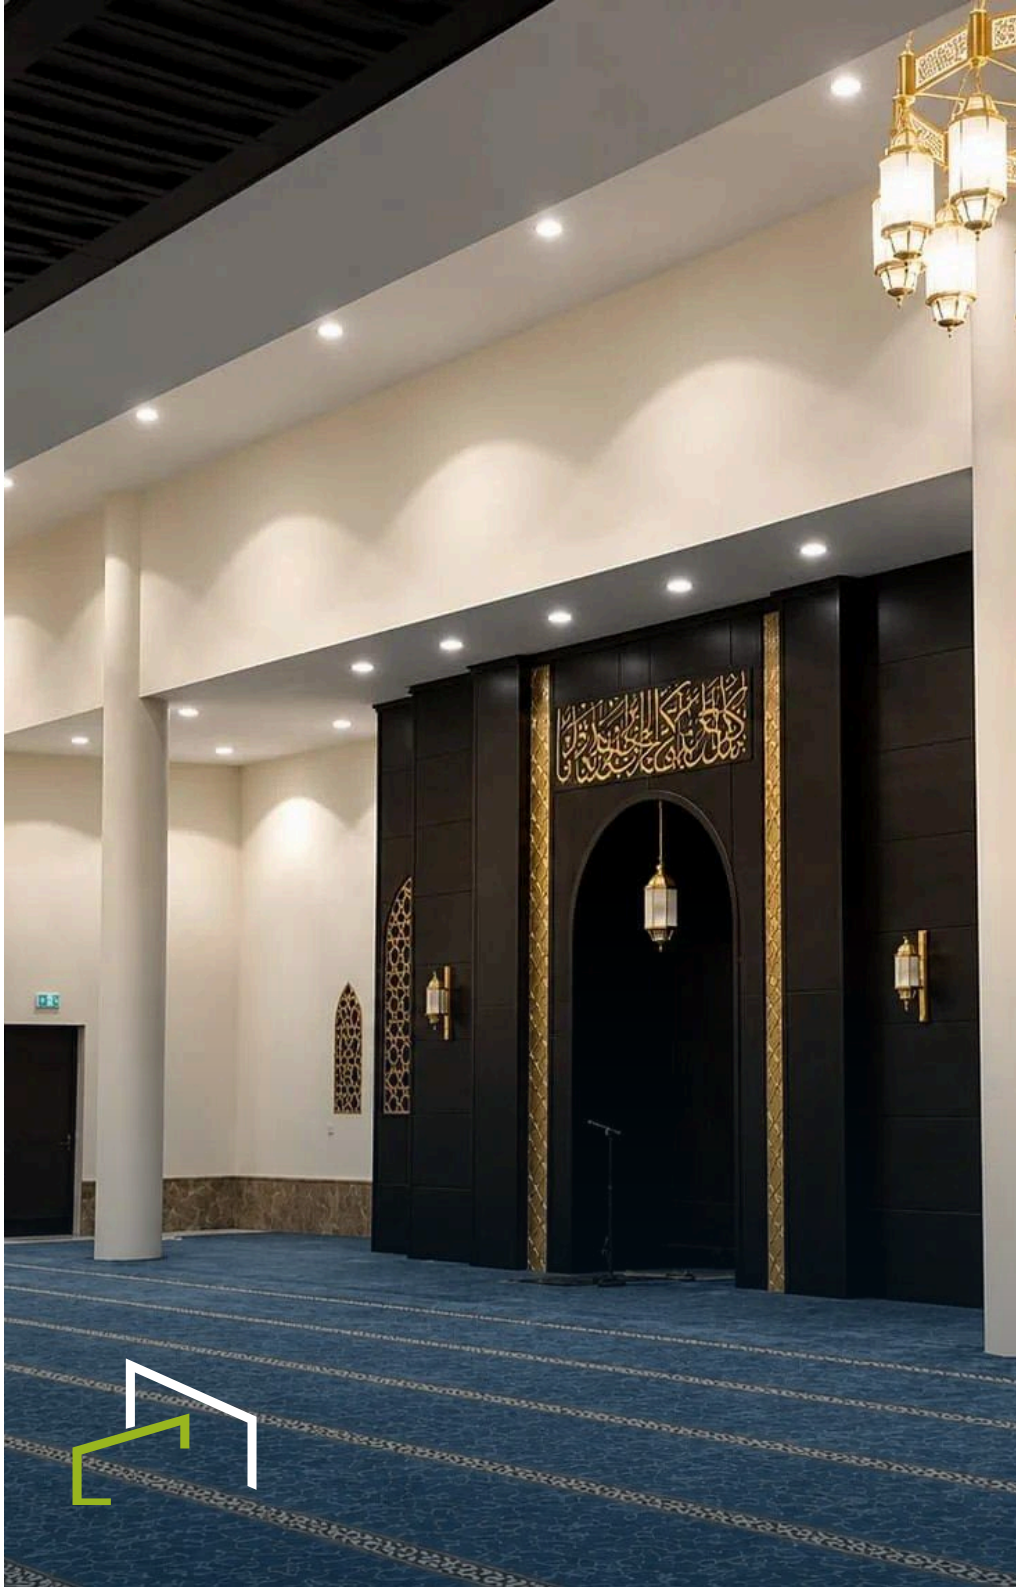

General construction

Interior and exterior gypsum and decorative work by a specialist team.

Finishing is what gives a building its character. Our specialist gypsum and decoration team works to a high professional standard, turning the design into finished interiors and facades as one coordinated crew.

Includes

- ✓ Gypsum ceilings and walls
- ✓ Interior decorative work
- ✓ Exterior decorative details

06 / 08

Specialist works

Cleaning

Property management and brokerage

Cleaning glass and cladding facades of high-rise buildings, interiors, floors and stone.

To round out our services, a specialist department cleans the facades of high-rise buildings, glass or cladding, with the right equipment and experience. Another cleans interiors, floors and stone facades, restoring stone to how it looked when it was laid.

Includes

- ✓ Glass and cladding facades
- ✓ Interiors and floors
- ✓ Restoring stone facades

07 / 08

Specialist works

Central air-conditioning duct cleaning

Property management and brokerage

Clearing ducts of built-up dirt and mould, with dedicated equipment, technicians and materials.

A support service we are known for. Our specialist team clears air-conditioning ducts of the dirt that builds up over time and of mould, using equipment, technicians and materials dedicated to the job, with care for safety and the environment.

Includes

- ✓ Removing built-up dirt
- ✓ Treating mould
- ✓ Safe and environmentally careful work

08 / 08

Specialist works

Concrete treatment

General construction

Treating concrete and surfaces with dedicated chemicals against corrosion and cracking.

Proper treatment is what keeps concrete strong, and helps it resist corrosion and cracking. We use dedicated chemical products to treat concrete, including older structures and surfaces, so that they last.

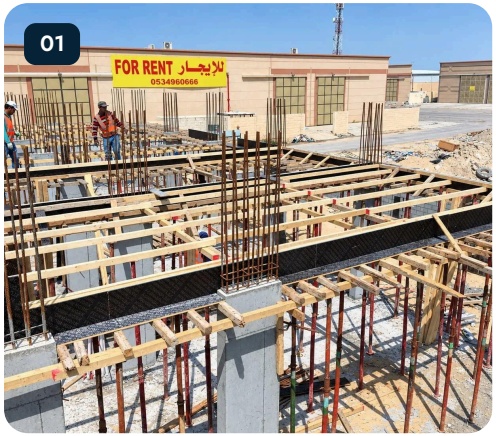

Includes

- ✓ Curing new concrete
- ✓ Protecting footings and surfaces against corrosion
- ✓ Repairing older concrete

Our work

Our projects

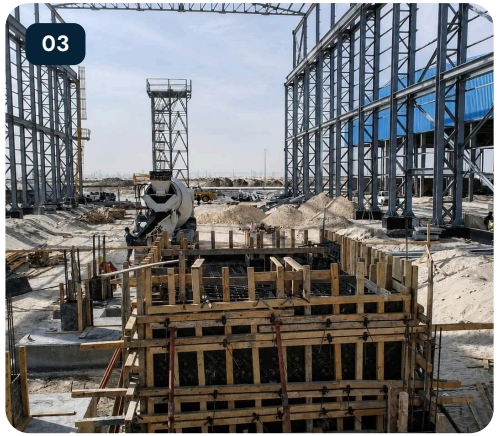

Buildings, factories, gas lines and infrastructure we have delivered for public and private clients.
